DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 5-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Sauers (3150394).

Sauers discloses an appliance having a main body (14), a support assembly (12 The member 12 along with its casing can be hollow with at least hollow portions.), a surface treating head (20), and plurality of rotatable members (75). In regard to claims 5-7 the language is broad enough where the prior art reads on it.

Allowable Subject Matter

3. Claims 2-6 and 14-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. **Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.**

Art Unit: 3727

- a. The after final amendment was entered and new art was found and applied against the claims. **New allowable subject matter identified. This art changed the subject matters discussed in the interview.**
